

What If

Jason and Mason Were Not Successful In the Ultraverse

Note: This plot/storyline tells of an alternate ending to the intended animated feature, Jason and Mason Ultraverse. That story is available here on Deviantart. There will be a link to it in the description. It is strongly recommended that you read Jason and Mason Ultraverse before reading this.

Jason and Mason are in Lloyd Barnesworth's apartment and they are trying to figure out how to work the machine that their universe marble is in. Small fighting robots are entering the room and attacking Jason and Mason. Mason tries to calibrate the machine and Jason kicks off one of the robots and it smashes into the wall. Keith is outside the door attempting to fight off the robots. A larger robot with a giant mallet enters the scene and it smashes Keith into the closet. Jason said, "Keith!" Mason said, "We must let him go. We are in great enough danger as is." More robots enter and the giant mallet robot smashes the control console for the universe. Mason said, "I guess we have no other choice now but to retreat." Jason and Mason grab onto each other and they jump back into their universe and they end up in the chaotic streets of San Francisco.

Giant robots patrol the streets and they search for people that are against the new laws. Jason and Mason see they are in front of Mason's lab. Jason and Mason run in Mason's lab and they look around the place. Mason grabs some equipment and he looks over things on his computer. Propaganda of the new laws appears on Mason's computer screen. Mason said, "Look at this. They've taken over my computer. We can't browse the internet now." The giant robot breaks the top of Mason's lab off and he looks inside. He sees Jason and Mason in there. Jason panics and he runs and hides under the couch. The robot picks up the couch and throws it away. Mason takes out a ray gun and he tries using it on the robot and it does nothing. Mason said, "It looks like this is where it all ends."

A black cylinder with a red CF (Captain Fusion Logo) hovers over the lab and it sends out a laser beam and it cuts up the legs of the giant robot and the robot falls and breaks into pieces. The cylinder descends into Mason's lab. The cylinder takes out a holo-projector and a hologram of Captain Fusion appears. Captain Fusion said, "Jason and Mason. For years we have fought along side each other and always have served justice against our adversaries. It looks like things are different now. If you are getting this message, it means I have failed. I knew I might fail so I programmed the flying cylinder to have my backup plan. You are to latch onto it and go to the place I programmed into it." A robot hand punches into the hologram and more giant robots are surrounding Mason's lab. Jason and Mason jump on the cylinder and it flies around the robots and it sends more laser beams at the legs of the robots and it destroys them. The cylinder heads for the coastline and it heads out into the

pacific ocean.

Jason and Mason ride on the cylinder over the pacific ocean. Jason said, "Where do you suppose this thing is going to take us?" Mason said, "I have no clue but it probably has some kind of connection with Captain Fusion." Jason said, "I hope it is good." The cylinder heads for an island in Oceania near Asia. The cylinder takes Jason and Mason to the island and it lands there. Jason and Mason get off and they see ancient temples everywhere and a civilization of people that dress like monks. Jason said, "Where are we?" Mason said, "It looks like we ended up in some kind of monk country." Admiral Lightning enters the scene and he is dressed as a monk. Admiral Lightning said, "Jason and Mason. You have finally arrived. I've been waiting for you. Come with me."

Jason and Mason are walking down a hallway with Admiral Lightning. Admiral Lightning said, "I know about what has been going on in the rest of the world. Don't worry because there is none of it here. This is my monastery. I am the leader of this grand clan of monks. You two are to join me and become a member of the monastery." Admiral Lightning gives Jason and Mason monk robes. Jason and Mason put them on and Jason said, "What kinds of things do we monks do?" Admiral Lightning said, "We live off the land. We wake up at 4 every morning and we plow the fields and we collect our crops and we cook and clean the place. When we are not doing that, we document things in our sepia toned manuscripts. We are the ones that brought you our greatest best seller, the Book of Kells." Admiral Lightning holds up a copy of the Book of Kells. Jason and Mason give odd looks to each other.

Jason and Mason wake up early the next morning and they are out of it and they plow the fields and they struggle to do so. They do other hard work around the place and they are seated at the scriptorium where they have to illustrate things from manuscripts. Jason said, "Being a monk sucks. You work all day and you don't get paid. There is no TV or orange soda either." Mason said, "Well, this is all we have left. It is not safe for us in the rest of the world. We are all there is left of that nice place." Jason said, "I would rather take my chances in the place we came from than live the rest of my life here." Mason said, "Nah, you wouldn't like being dead either."

Back in San Francisco, the Director of the prison Jason and Mason were at is seated at the top of a tall tower that can be seen from space. The Director looks over charts and statistics. The Director said, "It looks like things are going quite well. Most of the remaining people are following our new laws and most people that protested are gone now. There is no more Captain Fusion to get in my way either." The Director uses a telescope and he looks down at the city and he sees people getting whipped by nightmare police and evil robots.

Jason and Mason collapse in their bedroom in their beds. Jason said, "Some TV would be nice right about now." The cylinder is in the bedroom and it activates and it produces another hologram of Captain Fusion. Captain Fusion said, "Jason and Mason, I know you would not do well at the monastery. I have done all I can to make it more entertaining for you. I have built a TV tuner into this cylinder. It only gets one channel which is DDD News but it is better than not having TV at all." Captain Fusion fades out and the hologram changes to DDD News. Jason said, "I guess it is more entertaining than anything else right now."

George Ferrier appears in the hologram and he said, "I am George Ferrier of DDD News. In Washington today, the president of the United States has signed over his country to the new director of the new laws that went into effect. The Director is now the president of the United States." The Director takes the podium and he said, "Fellow citizens of the world, it is time you have learned about how to properly run a country. It is best run when there is one leader that gets anything he wants. Also, it is my understanding that Jason and Mason have been spotted around here a few days ago and they destroyed a few of my expensive robots. I have issued a world-wide search for Jason and Mason as they are too dangerous to be left out in the world." Footage shows the Director's men searching various parts of the world. Jason and Mason's eyes go big and they look at each other. Jason said, "Are you thinking what I am thinking?" Mason said, "They are looking for us and it looks like they have advanced technology. They would destroy this place if they ever found it. We need to do something." Jason said, "Maybe we can get Admiral Lightning and his monks to take our side. We could use some extra help." George Ferrier said, "I am here with a citizen of the new laws. Here is our own rich girl, Pamela." Pamela is on the hologram and she said, "It is a nightmare. They have taken all my money away from me and they are making me work hard for nothing. Jason and Mason if you are watching this you need to do something!" George Ferrier cuts her off and he said, "That is enough for now. I am George Ferrier of DDD News." Jason and Mason's eyes go big.

Jason and Mason go to Admiral Lightning and they show him the footage of the horrid things that go on in the rest of the world. Admiral Lightning said, "This is pretty serious. However, there is nothing I can do." Mason said, "I think you should really consider this. The world is in danger and you are one of the last great heroes. Captain Fusion would have wanted you to do this and I am sure all those other fans you have that look up to you would want you to do something. Don't you have that diamond gem thing that you throw around and knock out bad guys with? That could come in handy right now." Admiral Lightning said, "I stand by my decision." Jason said, "Did you see the news report? They are looking for us. It is only a matter of time before they find us here. They would probably destroy you too and all your monks and everything that this place stands for." Mason said, "Don't be selfish. You are being very selfish right now. Come on Jason, let the selfish man that is no hero be." Jason and Mason turn around and they get ready to leave the office. Admiral Lightning said, "You're right. You are entirely right. I should do something. It is an insult to the memory of Captain Fusion and all that him and his fans stood for. I am in. I have something to show you first."

Admiral Lightning takes Jason and Mason to a secret hangar under the island. It is filled with flying saucers that are red and black and have Captain Fusion's CF logo on them. Jason said, "Whoa! Where did you get all these?" Admiral Lightning said, "Captain Fusion has been sending me experimental technology of his for years. Most people in the world don't know that this place exists. That is why Captain Fusion trusted me to keep it safe here. I think it is time we put this technology to use."

Jason and Mason are in two of the saucer fighters and Admiral Lightning is in another one and the rest of the monks are flying in their own saucer fighters. Mason looks at the computer screen in his fighter and he targets the tower that the Director lives in. Mason said, "We are going to make our attack at the top of the tower. I am engaged." The Director sits in his office in the tower and a man enters and he said, "Director, we count thirty saucer fighters heading for this place and they are small and have heavy firepower and they are getting past our giant robot guards." The Director said, "Send in the robo-fighters to engage them."

Robot fighters come out and they dogfight with the monk fighters. One of the monks said, "It looks like we have company." Mason said, "Jason, Admiral Lightning, cover for me. We are going in." The rest of the fighters dogfight with each other. Jason, Mason, and Admiral Lightning head towards the tower. The tower defenses activate and they fire at Jason, Mason, and Admiral Lightning. Mason sees the director in his office and one of the defense turrets shoots down Mason. Mason ejects from his fighter and he jumps out and he sticks to the glass of the tower where the Director's office is. Mason takes out a fusion cutter and he cuts a hole in the glass and he jumps inside. Mason said, "It is over Director. You have done a lot of bad things to my friends and other people in the fair world. It is time you go down." The Director said, "Boys." Two giant thugs come out and Mason tries to fight them off but the thugs get a strong grip on Mason and they pin him to the floor. Jason and Admiral Lightning completely blast the window down and they eject from their fighters and they land in the office. Admiral Lightning is in his classic super suit and he throws a green diamond gem at the thugs and they get knocked down and Mason is free. Admiral Lightning said, "Give up." The Director presses more buttons on his desk and loads of robots and guards and his other forces enter his office. The office is surrounded by giant robots. Mason gets a call on his communicator and it said, "Mason, this is Monk Slice. We are going under heavy fire power. They have destroyed all our fighters and I am the last one. The monks have been taken into prisons. I am all that is left... arrgh!" The Director said, "You see, you are greatly outnumbered. I am the one that is intended to rule over you."

Jason, Mason, and Admiral Lightning stand down as all the forces aim their weapons at them. The Director said, "Normally I would have you incarcerated for this. Since this time you have done a bit more, I think you deserve more." The enemies load up their weapons. Then they hear a rumbling coming from outside. One of the giant robots in the background gets knocked down and destroyed and then another one gets knocked down and destroyed. The Director looks at this and he said, "What gives!" They hear something climbing up the building and it jumps in the office and it is a robot mech that is black with the red CF on it and it punches and flips several evil robots off the side of the office. Jason and Mason get a peak of who is controlling it and it is Pamela. Jason and Mason said, "Pamela!" Pamela said, "I figured you boys would be in trouble. I just happen to have this mech that Captain Fusion gave me. It looks like you are back in business. The mech fights more robots and troops off and Pamela stops and she looks at Jason and Mason again and she said, "I almost forgot something." Pamela jumps off the roof and she comes back holding a platform filled with average civilians that have angry looks on their faces. Pamela said, "These people are pretty bugged by the fact that you took away all their rights. It is time they told you what they feel about you." The civilians charge for the Director and a fight cloud forms over them. The Director sneaks under the cloud and he runs out of the office and Mason spots him. Mason follows him and Mason and the Director are out in the hallway outside of the office. Mason said, "Stop right there. I know what you are going to do. Face the fact that you just lost." The Director said, "No, you have!" The Director takes out a ray gun and he fires it at Mason and it does nothing. The Director said, "How is this not working? I stole this from your lab and I know you build all the best ray guns." Mason said, "That one was a dud and this is not." Mason takes out his signature boxing glove on a coil and he smacks the Director in the gut. Mason grabs onto the Director and Mason drags him back into his office. Admiral Lightning goes to the Director and he lifts him up and he said, "It is time now you paid the price for the things you've done you little stinker."

A portal opens up in the office and Keith jumps out and he is dressed in robes and he is armed with a sword. Keith said, "I will take it here." Keith takes the Director and he said, "As a citizen of the Ultraverse and a knight of authority, I place you, Director under arrest. You are going to prison in the Ultraverse where you will be put on trial." Jason and Mason give Keith an odd look. Mason said, "What happened to you?" Keith said, "After you left me in the Ultraverse, I thought I was stuck there. I also thought about the things that happened in the last few days and I realize I was wrong this whole time. I needed to change and turn my life around. I joined this cult of people that patrol the Ultraverse and go to different universes and settle conflicts related to the Ultraverse. This Director did not exist in your universe until a few days ago. He was wrongfully placed in your universe. I shall now take him back." Mason said, "Is there anything more you can do by helping us restore the universe?" Keith said, "I'm afraid there isn't. The console was smashed by that mallet robot earlier and I am not allowed to directly change universes even if they have been illegally altered. I am sorry. I still wish to be friends with you. For now I am busy with a lot of paperwork. Take care all of you." Ultraverse Keith takes the Director and he jumps in the portal with him. Jason and Mason scratch their heads. Admiral Lightning said, "It looks like we have won!" Everyone cheers.

George Ferrier is in the DDD News room and he said, "Hello, I am George Ferrier of DDD News. The Director has been taken into custody in some place called the Ultraverse. The nation is still recovering from the reign of terror it just got out of. President Bush admits he cannot handle the United States anymore and the government has been mostly dissolved. Admiral Lightning is trying to form a new government and now the new president for now at least is, Clearance Conrad." President Conrad (Admiral Lightning when he is not Admiral Lightning) appears on the screen and he said, "As president I will lead this nation to a new level for greatness. I now honor those that have not been honored before." A gold statue of Jason, Mason, and Captain Fusion is placed in Washington D.C."
